

5.3 Marine Biology

- A Marine Biologist is a scientist who studies the ocean and the life within the ocean.

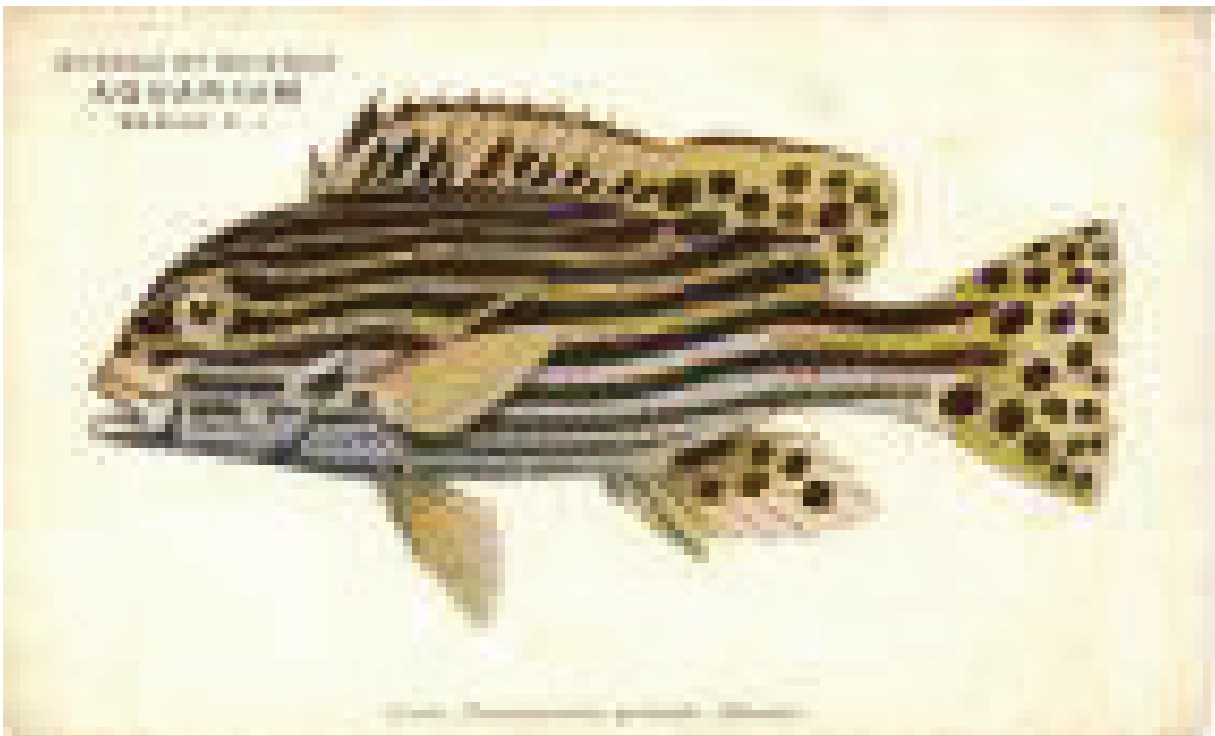

5.4 Fish

- Gill – the part of the fish that makes it possible for the fish to breathe water instead of air.

Can you find the tail, gills, fins, body, eyes and mouth of the fish?

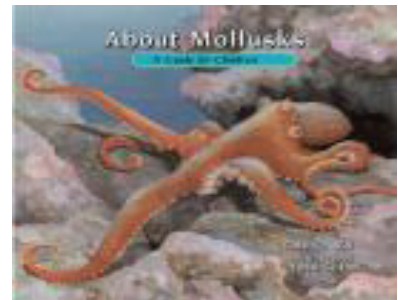

5.5 Mollusk

- A mollusk is a sea creature with a soft body, a head with a mouth, and a muscular foot for moving.

Mollusks

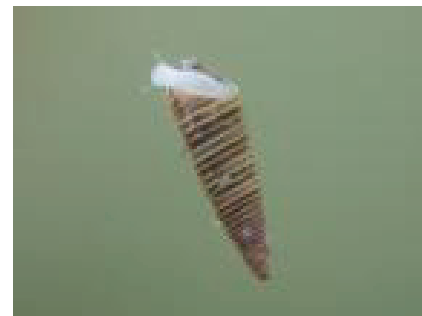

- Bivalves such as clams

- Octopus

- Squid

- Snail
