

Honors Chemistry

Syllabus, Pacing Guide, and Daily Lesson Plans

Table of Contents

Course Syllabus – Honors Chemistry	9
Unit 1 An Introduction to Honors Chemistry (15 Days)	17
Unit 2 Atomic Structure and an Introduction to Bonding (10 Days).....	20
Unit 3 Electrons and Electron Configurations (15 Days).....	22
Unit 4 The Role of Electrons in Bonding (10 Days).....	25
Unit 5 Milestones in the History of Chemistry (12 Days)	27
Unit 6 Periodicity and Electronegativity (9 Days).....	29
Unit 7 Formulas, Dimensional Analysis, and Reaction Types (9 days)	31
Unit 8 Equations, Reaction Rates, and Stoichiometry (10 days)	33
Unit 9 The Chemistry of Water, Liquids, and Solutions (12 days)	35
Unit 10 The Chemistry of Gases (17 days)	37
Unit 11 Acids, Bases, Salts, and pH (9 days)	40
Unit 12 Enthalpy, Entropy, and Thermochemistry (9 Days)	42
Unit 13 Organic Chemistry (10 days).....	44
Unit 14 Redox Reactions and Electrochemistry (Flexibility Unit).....	46
Unit 15 Nuclear Chemistry (11 days).....	48
List of Demonstration Activities	50
List of Laboratory Activities.....	51
List of Enrichment Activities.....	52
Unit 1 An Introduction to Honors Chemistry	53
Lesson 1-1 Welcoming and Opening Day Procedures.....	53
Lesson 1-2 An Introduction To Honors Chemistry	54
Lesson 1-3 Chemical and Physical Properties of Matter	57
Lesson 1-4 rft Worksheets and Demonstration	60
Lesson 1-5 Safety, Safety Equipment, and Demonstrations	62
Lesson 1-6 Physical versus Chemical: Properties and Changes.....	64
Lesson 1-7 Density	65
Lesson 1-8 Demonstration and rft Worksheets	67
Lesson 1-9 Flexibility and Enrichment Options.....	68
Lesson 1-10 Reading Skills Activity and Further Safety Considerations	69
Lesson 1-11 The Periodic Table – Further Concepts.....	70
Lesson 1-12 Reading Skills Activity and rft Worksheet	72
Lesson 1-13 Student Lab Activity – Density.....	74
Lesson 1-14 Flexibility and Enrichment Options.....	75
Lesson 1-15 Unit One Exam	75

Honors Chemistry Table of Contents

Unit 2 Atomic Structure and Chemical Bonding	77
Lesson 2-1 Atomic Structure	77
Lesson 2-2 Elements, Compounds, and Mixtures	80
Lesson 2-3 rft Worksheets and Demonstration	83
Lesson 2-4 Reading Activity, Demonstration, and rft Worksheet.....	84
Lesson 2-5 Flexibility and Enrichment Options.....	86
Lesson 2-6 My name is Bond Five Types of Bonds.....	87
Lesson 2-7 Demonstration and Two rft Worksheets	88
Lesson 2-8 Student Lab Activity	89
Lesson 2-9 Flexibility and Enrichment Options.....	89
Lesson 2-10 Unit Two Exam	90
Unit 3 Electrons and Electron Configurations (15 days)	92
Lesson 3-1 Electron Configurations of Periods 1 and 2	92
Lesson 3-2 Electron Configurations of the Third Series	96
Lesson 3-3 rft Worksheets and Demonstration	98
Lesson 3-4 Student Lab	99
Lesson 3-5 Flexibility and Enrichment Options.....	99
Lesson 3-6 Electron Configurations of the Fourth Series.....	100
Lesson 3-7 The Periodic Table's s, p, d, and f Blocks.....	104
Lesson 3-8 rft Worksheets and Demonstration	105
Lesson 3-9 Student Computer Activity: MolViz 1 – Introduction to RasMol	107
Lesson 3-10 Flexibility and Enrichment Options.....	107
Lesson 3-11 Quantum Numbers and Test Topics and Emphases	108
Lesson 3-12 Reading Skills Activity and Sodium Polyacrylate Demonstration	109
Lesson 3-13 Separation Technology Lab 1 – Paper Chromatography	110
Lesson 3-14 Flexibility and Enrichment Options.....	111
Lesson 3-15 Unit Three Exam.....	111
Unit 4 The Role of Electrons in Bonding	113
Lesson 4-1 The Role of Electrons in Bonding 1 – Ionic Bonds.....	113
Lesson 4-2 Electrons 2 – Covalent, Polar-Covalent, and Metallic Bonds.....	114
Lesson 4-3 rft Worksheets and Demonstration	115
Lesson 4-4 Reading Activity and Demonstration.....	116
Lesson 4-5 Flexibility and Enrichment Options.....	118
Lesson 4-6 Valence Electrons, Lewis Dot Diagrams, and Stable Octets	118
Lesson 4-7 rft Worksheet and Fluorescence Lab or Demonstration.....	119
Lesson 4-8 Student Lab Activity – pH Sensitivity in Plant Pigment Extracts	121
Lesson 4-9 Flexibility and Enrichment Options.....	121
Lesson 4-10 Unit Four Exam.....	122

Honors Chemistry Table of Contents

Unit 5 Milestones in the History of Chemistry.....	124
Lesson 5-1 Early Milestones in the History of Chemistry	124
Lesson 5-5 Flexibility and Enrichment Options.....	129
Lesson 5-9 Student Lab Activity – Bright Line Emission Spectroscopy	134
Lesson 5-10 Flexibility and Enrichment Options.....	134
Lesson 5-11 Student Lab Activity – Counting Things by Weighing Them.....	135
Lesson 5-12 Unit Five Exam.....	135
Unit 6 Periodic Properties, Trends, and Patterns	137
Lesson 6-1 Periodicity 1 -- Atomic Radii	137
Lesson 6-2 Periodicity 2 – Ionic Radii and Ionization Energies.....	138
Lesson 6-3 rft Worksheets and Demonstration	140
Lesson 6-4 Electronegativity.....	141
Lesson 6-5 rft Worksheet and Demonstration	142
Lesson 6-6 Computer Lab Activity: Molecular Visualization 2.....	143
Lesson 6-7 Glass Tubing Demonstrations and Reading Skills Activity.....	143
Lesson 6-8 Flexibility Day	145
Lesson 6-9 Unit Six Exam	145
Unit 7 Ions, Formulas, and Reactions	147
Lesson 7-1 Ions, Formulas, and Oxidation Numbers	147
Lesson 7-2 Dimensional Analysis	148
Lesson 7-3 Ions, Formulas, and Dimensional Analysis – Two Worksheets	149
Lesson 7-4 Quiz and Flexibility / Enrichment Options	150
Lesson 7-5 Six Common Types of Chemical Reactions	151
Lesson 7-6 Two rft Worksheets and Demonstration Activity	152
Lesson 7-7 Student Lab Activity and Additional Review for Exam	153
Lesson 7-8 Flexibility and Enrichment Options and Extra Test Review Day	154
Lesson 7-9 Unit Seven Exam.....	155
Unit 8 Reaction Rates, Stoichiometry, and Equilibria	156
Lesson 8-1 Balancing Chemical Equations.....	156
Lesson 8-2 Stoichiometry.....	157
Lesson 8-3 rft Worksheets and Demonstration Activity.....	158
Lesson 8-4 Student Rotational Lab Activity – The Gold Penny Lab.....	159
Lesson 8-5 Flexibility and Enrichment Options.....	160
Lesson 8-6 Reaction Rates and Equilibria – Part One.....	160
Lesson 8-6 Equilibrium and Keq Continued	162
Lesson 8-7 rft Worksheet, Reading Skills, and Demonstration Activity	162
Lesson 8-8 Computer Lab Activity - Graphing.....	164
Lesson 8-9 Flexibility and Enrichment Options.....	164
Lesson 8-10 Unit Eight Exam	165

Honors Chemistry Table of Contents

Unit 9 The Chemistry of Water, Liquids, and Solutions	167
Lesson 9-1 The Chemistry of Water	167
Lesson 9-2 The Chemistry of Liquids and Solutions	170
Lesson 9-3 The Chemistry of Liquids and Solutions	171
Lesson 9-4 Student Lab Activity – Calorimetry 1.....	172
Lesson 9-5 Flexibility and Enrichment Options.....	172
Lesson 9-6 The Chemistry of Solutions.....	173
Lesson 9-7 Solute Concentrations and Molarity.....	174
Lesson 9-8 rft Worksheet, Demonstration, and Reading Skills Activity	175
Lesson 9-9 Student Lab Activity – Preparation of Laboratory Solutions.....	177
Lesson 9-10 Flexibility and Enrichment Options.....	177
Lesson 9-11 Student Lab Activity – Colligative Ice Cream.....	178
Lesson 9-12 Unit Nine Exam	178
Unit 10 The Chemistry of Gases	180
Lesson 10-1 Gases, Collisions, and Kinetics.....	180
Lesson 10-2 Measuring the Pressure of a Gas	181
Lesson 10-3 Boyle’s Law, Worksheets, and the Inside-Out Balloons	182
Lesson 10-4 Student Lab Activity – Boyle’s Law	184
Lesson 10-5 Flexibility and Enrichment Options.....	185
Lesson 10-6 Charles’ Law and the Combined Gas Law.....	185
Lesson 10-7 Dalton’s Law of Partial Pressures and Worksheets Review.....	187
Lesson 10-8 Quiz, Demonstration, and Reading Skills Activity.....	188
Lesson 10-9 Student Lab Activity - Charles’ Law.....	190
Lesson 10-10 Flexibility and Enrichment Options.....	190
Lesson 10-11 The Ideal Gas Equation	191
Lesson 10-12 Worksheets, Reading Skills Activity, and the Liquid Rainbow	193
Lesson 10-13 rft Worksheets and Demonstration	194
Lesson 10-14 Collecting O ₂ Over Water and Rate of Production	195
Lesson 10-15 Flexibility and Enrichment Options.....	196
Lesson 10-16 Math Portion of Unit Exam and Demonstration	196
Lesson 10-17 Unit Ten Exam.....	196
Unit 11 Acids, Bases, Salts, and pH 9 Days.....	198
Lesson 11-1 An Introduction to Acids	198
Lesson 11-2 Acidity, the Autoionization of Water, and the pH Scale	199
Lesson 11-3 Worksheet, Reading Activity, and Precipitating a Carbonate	201
Lesson 11-4 Bases, Neutralizations, and Salts.....	203
Lesson 11-5 Worksheet, Reading Activity, and Column Chromatography	204
Lesson 11-6 Classical Acid-Base Titrations – A Dry-Lab Presentation	205
Lesson 11-7 Student Lab Activity – Good Titrations (Clean Lab Stations).....	206
Lesson 11-8 Flexibility and Enrichment Options.....	207
Lesson 11-9 Unit Eleven Exam.....	207

Honors Chemistry Table of Contents

Unit 12 Enthalpy and Thermochemistry 9 Days	209
Lesson 12-1 Introducing Enthalpy and Thermochemistry.....	209
Lesson 12-2 Entropy, Randomness, and Disorder.....	210
Lesson 12-3 Two rft Worksheets and Demonstration Activity	211
Lesson 12-4 Flexibility and Enrichment Options.....	212
Lesson 12-5 The Free Energy Equation and Other Energy Considerations	213
Lesson 12-6 Worksheet, Reading Activity, and Growing Crystals in a Gel	214
Lesson 12-7 Student Lab Activity – Calorimetry 2 or Alternate	215
Lesson 12-8 Flexibility and Enrichment Options.....	216
Lesson 12-9 Unit Twelve Exam	216
Unit 13 Organic Chemistry 10 Days	218
Lesson 13-1 Introducing Organic Chemistry and Common Hydrocarbons	218
Lesson 13-2 Organic Chemistry – Nomenclature and Functional Groups.....	219
Lesson 13-3 Two rft Worksheets and Esterification Activity.....	220
Lesson 13-4 Student Lab Activity – Laboratory Extraction of a Nucleic Acid.....	221
Lesson 13-5 Flexibility and Enrichment Options.....	221
Lesson 13-6 Isomers, Aromatics, and Saturated/Unsaturated Compounds	222
Lesson 13-7 Worksheet, Reading Skills Activity, and a Chemical Sunset	223
Lesson 13-8 Student Lab Activity – The Polymerization of Nylon.....	225
Lesson 13-9 Flexibility and Enrichment Options.....	226
Lesson 13-10 Unit Thirteen Exam	226
Unit 14 Redox Reactions and Electrochemistry 9 Days	228
Lesson 14-1 Fundamental Aspects of Oxidation-Reduction Reactions	228
Lesson 14-2 Balancing Redox Reactions Using The Half-Reaction Method	229
Lesson 14-3 rft Worksheets an Colorful Electrolysis Demonstration	230
Lesson 14-4 Student Lab Activity or Enrichment Worksheets.....	231
Lesson 14-5 Flexibility and Enrichment Options.....	231
Lesson 14-6 Electrochemical Cells and Electrochemistry.....	232
Lesson 14-7 Worksheets, Reading Skills Activity, and Demonstration	233
Lesson 14-8 Flexibility and Enrichment Options.....	234
Lesson 14-9 Unit Fourteen Exam	235
Unit 15 Nuclear Chemistry 11 Days	237
Lesson 15-2 The Nuclear Transmutation of Uranium-238	238
Lesson 15-3 rft Worksheets, Reading Skills Activity, and Demonstration	239
Lesson 15-4 Computer Lab Activity	241
Lesson 15-5 Flexibility and Enrichment Options.....	241
Lesson 15-6 Chain Reactions and Nuclear Fission	241
Lesson 15-7 Nuclear Fusion Reactions and Stellar Nucleosynthesis.....	243
Lesson 15-8 rft Worksheets and Enrichment Activity	244
Lesson 15-9 Graphs: Fission, Chain Reactions and Exponential Progressions	246
Lesson 15-10 Flexibility and Enrichment Options.....	246
Lesson 15-11 Unit Fifteen Exam	246

Honors Chemistry Table of Contents

DM-1	Disappearing Ink.....	248
DM-2	Observing the Invisible.....	250
DM-3	The Immiscibility Bottle.....	254
DM-4	Safety Demonstrations	256
DM-5	Modeling a Summer Stratification.....	257
DM-6	Measuring the Invisible (Laboratory Manometer)	259
DM-7	Spontaneous Polar / Non-polar Interactions.....	261
DM-8	The Blue Bottle Reaction.....	264
AD-9	The Ammonia Fountain	266
AD-10	Acid in the Eye – pH and Translucent Proteins	269
AD-11	Flame Tests Demonstration	271
AD-12	The Use of a Spectroscope.....	272
AD-13	Hydrogen Bonds and Transpiration	274
AD-14	The Drinking Bird – Almost Perpetual Motion	276
AD-15	Crystal Growing Demonstration – Rock Candy	278
AD-16	H ₂ Gas and the Little HEN-denburgs ***	279
AD-17	The Synthesis of Green and Glowing Slime	282
AD-18	Sodium Polyacrylate: Superabsorbent Polymer.....	283
AD-19	Separatory Funnel Demonstration	285
AD-20	Wafting – Vinegar, Vanilla, and Wintergreen	286
AD-21	Comparative Densities – Cola and Diet Cola.....	287
AD-22	Laboratory Balances and Water Displacement.....	288
AD-23	A Pinch of Lycopodium Powder.....	289
AD-24	The Touch-Me-Not Bottle	290
AD-25	UV Beads	291
AD-26	Pennies Just Aren't What They Used To Be	292
AD-27	The Best Mole Song Ever Written	295
AD-28	Mendeleev	296
AD-29	6:02 a.m. – October 23 rd	297
AD-30	Extracting Iron From A Breakfast Cereal.....	298
AD-31	The Iodine Test for Starch	299
AD-32	Limewater – Precipitating a Carbonate	300
AD-33	Growing A Silicate Garden	303
AD-34	Hand-Boilers, Vapor Pressure, and Distillation.....	304
AD-35	CO ₂ and an Erlenmeyer Pop-Gun	305
AD-36	The Q ₁₀ Effect and Chemiluminescence.....	306
AD-37	The Suspended Bubble	307
AD-38	Growing Crystals in a Gel.....	308
AD-39	Floating a Needle – Surface Tension of Water	309
AD-40	Thresholds and Goldenrod Messages.....	310
AD-41	UV Nail Polish	311
AD-42	Inverse Inflation of an Inside-Out Balloon.....	312

Honors Chemistry Table of Contents

AD-43	A Balloon Kabob.....	313
AD-44	Dry Ice and The Liquid Rainbow.....	314
AD-45	One Grain of Rice and the Invention of Chess.....	315
AD-46	Acidification of Water by CO ₂	316
AD-47	Electrochemistry and the Two-Potato Clock	317
AD-48	Burning Magnesium → MgO.....	318
AD-49	Watching All Your Troubles Dissolve Away.....	320
AD-50	Synthesis of a Flammable, Sterno-like Gel	321
AD-51	A Chemical Sunset.....	322
AD-52	Colorimetric Analysis of Dissolved O ₂ **SSL.....	323
AD-53	Column Chromatography.....	325
AD-54	Colorful Electrolysis.....	326
AD-55	Silver Mirror.....	327
AD-56	Oscillating Reaction 1	328
LB-1	Laboratory Balances and Density Determinations	329
LB-2	Density Strata in an Aqueous System.....	331
LB-3	Atmospheric O ₂ as a Percent by Volume.....	333
LB-4	Molecular Visualization 1 - Rasmol.....	336
LB-5	Separating Molecules – Paper Chromatography.....	338
LB-6	Calculating Chromatographic r - Ratios.....	343
LB-7	Bright Line Emission Spectroscopy.....	344
LB-8	Counting Things by Weighing Them.....	348
LB-9	Molecular Visualization Computer Lab 2	352
LB-10	MS Excel 1 – Graphing Periodicity Patterns	354
LB-11	Gold Pennies Lab: Cu → Ag → Au.....	356
LB-12	Graphing Equilibria and Evaporation Events.....	361
LB-13	Calorimetry 1 – The Specific Heat of Copper	362
LB-14	Colligative Ice Cream and FP Depression	365
LB-15	Charles’s Law and Pressure Disequilibria	367
LB-16	Collecting Molecular O ₂ Over Water.....	369
LB-17	Extraction and Collection of a Nucleic Acid.....	374
LB-18	The Polymerization of Nylon.....	377
LB-19	Esterification – Eau, What a Lab	379
LB-20	Quantifying the Q ₁₀ Effect on Reaction Rates.....	381
LB-21	Molviz 3 – Your Own Molecular Movie.....	384
LB-22	Graphing Fission and Chain Reactions.....	385
LB-23	Graphing Half-Lives and Patterns of Decline.....	386
LB-24	MS Excel – Common Patterns Seen in Data.....	388

Honors Chemistry Table of Contents

AL-25	Calorimetry 2 – The Specific Heat of Al and Zn.....	389
AL-26	Physical Molecular Modeling.....	390
AL-27	Separating Molecules 2–Radial Chromatography	392
AL-28	Molarity and Preparation of Molar Solutions.....	393
AL-29	Cartesian Divers and Boyle’s Law	396
AL-30	Glass Tubing, Flame Polishing, and Glass Bends	398
AL-31	Fluorescence and Energized Electrons	401
AL-32	Good Titrations – Clean Lab Stations.....	402
AL-33	Solar Heating and Rising Air Masses *SSL	403
AL-34	Sunprints, Blueprints, and Photochemistry *SSL	405
AL-35	pH Sensitivity in Plant Pigment Extracts	406
AL-33	Graphing the Heating Curve of Water **SSL	408
AL-34	MS Excel – Graphing Heats of Combustion	409
ENR-1	A Billion Homework Questions	410
ENR-2	The Best Scholarship There Ever Was	411
ENR-3	Reaction Rates and Equilibria	411
ENR-4	Graph Interpretation	411
ENR-5	Delayed Feedbacks	411
